-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, see pages 11 and 12 of remarks, filed 02/11/09, with respect to claims 1-18 have been fully considered and are persuasive. The rejection of the last office action has been withdrawn.

***Allowable Subject Matter***

2. Claims 1-18 are allowable over the prior art of record.
3. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record taken alone and in combination does not disclose "a method of measuring a signal transit time in a medical liquid required by a signal to pass through a measurement zone from an ultrasonic transmitter to an ultrasonic receiver which a line carrying the medical liquid is arranged in the measurement zone, comprising checking the oscillator-like received signal on the basis of a selection criterion at least during a half-period to determine whether the oscillator-like received checking the oscillator-like received signal on the basis of a selection criterion at least during a half-period to determine whether the oscillator-like received signal is the received signal produced by the step-like signal and if the result of the test is positive, for determining the signal transit time or the change in the signal transit time of an interpolated or extrapolated contact point of the oscillator-like received signal with a resting level in a received signal-time diagram" as recited in claim 1.
4. This application is in condition for allowance except for the following formal matters:

The preliminary amendment of 02/022/06 indicates that a substitute specification is attached, however, it is not listed in the received documents. Furthermore, the amendment of 02/19/09 requires a new amendment of the specification which is apparently based on the substitute specification since requests do not correspond to the actual specification in file. Therefore, applicant is requested to provide the substitute specification in order to clarify the records.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
